

PROFESSIONAL SUMMARY

Full stack engineer with production experience across healthcare, e-commerce, logistics, and SaaS. Proven track record architecting HIPAA-compliant clinical platforms, modernizing legacy infrastructure, and shipping end-to-end features across web and mobile. AWS Certified Developer with deep experience in serverless architecture, distributed systems, and AI-integrated applications

SKILLS

- Languages: TypeScript, JavaScript, Python, Java, SQL
- Frameworks & Libraries: Node.js, NestJS, React, Next.js, Expo, Spring
- Architecture: Microservices, Event-Driven Systems, Multi-Tenant
- Certifications: AWS Certified Developer Associate
- AI Tools: Claude Code, OpenCode, MCPs, Ollama, Local LLM Inference

WORK HISTORY

Senior Software Developer • *Managed Health Connections*

Spokane, WA • March 2025 to Current

- Architected and owned a HIPAA-compliant clinical research platform supporting behavioral health interventions across large multi-tenant deployments, resulting in a published NIH-funded study proving abstinence outcomes.
- Built full stack across NestJS, TypeScript, Prisma, CQRS, Next.js portals, and Expo mobile applications.
- Implemented native Java and Objective-C modules for breathalyzers and other biometric collection devices, integrating with AWS Rekognition
- Designed JITAI agent framework for real-time clinical intervention, EMA data processing pipelines, risk model integrations, and clinician portals for treatment triage.
- Reduced AWS infrastructure costs by 50% through serverless migration – ECS/Fargate to Lambda and Step Functions.

Director, Technology & Operations • *Spokane Exercise Equipment*

Spokane • April 2023 to March 2025

- Led enterprise migration of e-commerce and point-of-sale infrastructure from QuickBooks to Shopify, architecting backend integrations, internal tooling, and operational workflows.
- Designed and developed spokaneexercise.com with full Shopify integration.
- Drove 50% year-over-year revenue growth, and reduced vendor costs by 75% through platform consolidation and process automation.

Researcher • *ZoomInfo*

Vancouver, WA • July 2021 to August 2022

- Conducted intelligence research and data quality analysis for enterprise accounts.
- Led onboarding and training for new researchers, developing materials and providing daily mentorship to accelerate ramp time.
- Recognized with 2021 Research Excellence Award.

Team Leader • *FedEx Express*

Spokane, WA • July 2016 to November 2020

- Led modernization of mainframe-based Hazmat operations to a cloud-native mobile solution, eliminating paperwork, reducing delays by 100%, and enabling real-time field access.
- Managed daily operations and led team initiatives across multiple departments.
- Recognized with 2018 Purple Promise Award for operations excellence.

EDUCATION

Bachelor of Science - Computer Science • *Eastern Washington University*
Cheney, WA • April 2020

- Senior Capstone: Android Bluetooth Mesh Network
- Dean's List 2018-2020
- 3.6 GPA
